

**Beyond Places:
Mastering Hybrid Work Together**
We are looking for teams for our intervention
study!

Our workshop is practical, free of charge, and evidence-based.

www.fhnw.ch/beyondplaces

What is it about?

With our compact program, you will strengthen collaboration in your hybrid team:

- Clarify expectations: communication, availability, rules
- Design tasks and work locations appropriately: home office vs. office
- Consider needs: belonging, competence, autonomy

Your advantages

Ready-to-use methods and tools to promote:

- Better coordination and communication
- A stronger team spirit
- Flexible self-organization – regardless of where you work
- Sustainable improvement in team dynamics and processes

Procedure & participation — how to get involved

- Team-Workshop (½ day, online or onsite)
- Short online questionnaires

We are looking for teams of **ideally 4–12 people** (deviations are possible) **who work in hybrid mode** — i.e., some employees work at least one day per week from home.

The program is part of a scientific intervention study, so **participation is free of charge**.

Who are we?

We're a research team from the **University of Neuchâtel** & the **FHNW School of Applied Psychology**, supported by the **Swiss National Science Foundation (SNSF)**.

Make a non-binding inquiry now and join us in shaping hybrid work!
